

NODES™ is the one-stop-shop software package for all your Intermittent Fault Detection (IFD) needs!

Fully compatible with the Ncompass™ and IFDIS™ ranges of IFD test equipment, NODES provides a Windows-based graphical user interface that simplifies and speeds up the end-to-end IFD testing process – all at the click of a mouse.

NODES™ capabilities and functions include:

- ▶ Rapid, repeatable set-up of IFD test files, including multiple test point functions
- ▶ Automatic error-checking of user inputs
- ▶ Extensive use of Unit Under Test graphics to visualise test results in real-time
- ▶ Rapid, repeatable set-up of IFD test parameters
- ▶ Initiating all IFD test equipment functions
- ▶ Test results data management and automated reporting

Use of NODES requires Windows XP SP3 and Access 2010 SP1.

One-year's customer support included, including helpdesk/online support. Free downloads of upgrades up to v1.0 are included. Subsequent upgrades beyond v1.0 will be available to purchase and download at a later date.
