

No Fault Found Strategy Master-class (1 day duration)

Who should attend?	Why should they attend?
<p>This Masterclass is aimed at Executives and Senior Management from all Aerospace disciplines including:</p> <ul style="list-style-type: none"> ▪ Operations ▪ Financial ▪ Design, Production and R&D ▪ MRO ▪ Airworthiness, Regulatory & Quality 	<p>No Fault Found (NFF; also known as Cannot Duplicate and Unable to Reproduce Fault) costs the commercial aircraft sector an estimated \$200k per aircraft per year, and the US DoD estimates its annual NFF bill to be \$2Bn. Yet, in an Aerospace NFF survey in Q1 2012, 67% of participants did not know the cost impact of NFF on the performance, profitability and reputation of their organisation. This Masterclass will give your senior staff the insight and strategies to deal with this problem decisively and cost-effectively.</p>
What will they gain from the course?	What does the course cover?
<p>Masterclass attendees will gain targeted understanding of the main causes and impact of NFF, and of which strategies and approaches are genuinely effective at reducing NFF... and which are not.</p> <p>They will then be able to set up and implement a strategic action plan to tangibly and decisively reduce NFF and its impact on performance, profitability and reputation.</p>	<ul style="list-style-type: none"> ✓ NFF scenarios & terminology ✓ NFF impact on safety, availability and cost ✓ NFF causes and contributory factors ✓ Critical evaluation of NFF solution approaches
